The Lorenz Corporation Expands Printing Capabilities

November 24, 2009

Dayton, OH

Lorenz Printing Company has expanded its digital printing capacity with the addition of an HP Indigo 5500 digital press. Configured to print up to five colors on both sides of the sheet in a single pass, the press handles both lightweight and cover stocks, in sheet sizes up to 13" X 19". Its variable-data capability reduces setup time and waste to near-zero levels,

enabling economical production even at very low quantities. The press is currently in operation one shift per day; a second shift will be added in January.
