\*Measures 5-13 may be repeated indefinitely to accommodate processional needs, if desired. If you would like to add adult voices to this section, the first time could be sung by children alone, adding women the second time and men the third time. This section should be adapted to enhance the desired performance and musical goals of your specific situation. Regardless of the way this section is structured, the entire section, including repeats, should gradually build dynamically until measure 14.
