

The Case of the Missing Letter

This puzzle has 25 musical terms in which one letter is missing. Each term uses a different letter and each letter is only used once. The missing letter might be found at the beginning, middle or end of the term. Once you have identified a term, fill in the missing letter, circle the term, and cross out the letter you have used from the list at the left. The first word has been done to get you started.
