

I'm So Glad You're My Friend

1—Performance Track

11—Accompaniment Track

Welcome back to school! This is a great song to begin the school year and to program for your first performance.

Lyric	Quick Choreography
Part I	Opening position: Group students by part and have them stand side-by-side.
I'm so glad you're my friend.	Sway right, extend right hand. Sway left, extend left hand.
Glad to know I'm yours, too.	Sway right, bring right hand in to self. Sway left, bring left hand in to self.
It's so great spending time with a friend just like you.	Release jazz hands out in burst to audience. Right hand, palm up on "friend." Left hand takes the right hand of the person on the left on "you." Everyone is now holding hands and should lift them high.
Singing songs, dancing 'round, I don't want it to end.	All sway right/left with hands held high.
I'm so glad,	Sway right, extend right hand. Sway left, extend left hand.
I'm so glad,	Sway right, bring right hand in to self. Sway left, bring left hand in to self.
I'm so glad you're my friend.	Release hands out to audience and down to sides.
Part II	
When we're together, you and me, together,	Lock arms and sway right/left.
side by side.	Unlock arms and hold at sides.
Life's so much better.	Extend arms out to audience and hold. Bring arms in and cross on chest as if holding something.
I'm so glad,	Sway right, extend right hand. Sway left, extend left hand.
really glad,	Sway right, bring right hand in to self. Sway left, bring left hand in to self.
I'm so glad you're my friend.	Release hands out to audience and down to sides.
Third Ending:	"Buddy pose" with one or several friends.
