FOREWORD

The two volumes of Seasonal Psalms for Organ contain original compositions that are free interpretations of Psalm verses. The Psalms were chosen from the Lectionary for the major festival days and seasons of the Church Year. Some of the settings are based on hymns and chorales that are commonly associated with those days. The organ registrations serve as guidelines, and they should be creatively changed to suit differing instruments. There are instances where synthesized MIDI sounds can be effectively employed.

These Psalm settings were suggested by and written for Dr. Joan DeVee Dixon, Professor of Music at Frostburg State University in Frostburg, Maryland. Dr. Dixon also serves as organist and director of music at the historic Emmanuel Parish in Cumberland, Maryland. The settings were commissioned by Dr. Alvin C. Broyles, retired senior research associate of Exxon Production Research Company. He is a dedicated supporter of the arts and a lifetime member of the Board of Trustees of the University of the Ozarks in Clarksville, Arkansas.
